Summary

A self-motivated Front-end developer with 8+ years of professional experience and very eager to learn new things. I have worked for a company with video sharing platforms with over 60 million monthly active users. I want to contribute to teams as a creative person who loves the challenge of figuring out how to find the best solution to improve or create efficient & performant **JS/React** web apps.

Skills

- Programming languages: **JavaScript, ES6+, TypeScript**, HTML, CSS
- Libraries / Frameworks: **React, NextJs**, Redux, MUI (Material UI), Ant Design, Shadcn, Tailwind, Storybook
- Tools / libraries / patterns: **React hooks**, Unit testing, React Query, **Jest**, Apollo, GraphQL, Cypress, Webpack, Git
- Agile Methodologies: Jira, Scrum
- Communication: English (Professional working proficiency), Persian (native)

Work Experience

Senior Front-end Developer

HamrahTel

Tehran, Iran 03/2024 - 10/2024

HamrahTel was founded to create a fully integrated ecosystem for Iran's mobile phone and accessories market, connecting every link of the supply chain.

- *Architected & Developed Complex Front-End Solutions: Engineered high-performance, custom user interfaces by leveraging a modern tech stack of React, GraphQL, Apollo Client, React Hook Form, and Material React Table to solve intricate product challenges and deliver exceptional user experiences.*

Senior Front-end Developer

Karaz Platform

Saudi Arabia(remote) 03/2024 - 10/2024

Karaz Platform merges IoT, AI, and a personalized clinical decision support system to streamline healthcare management.
